WEDDING & EVENT PARTIES

ABOUT US

The idea to create Ramantanis Bros bar services & cocktail catering first came together in 2015, after a wedding ceremony on the island of Paros. Taking cues from that event, I sat down to think about how to effectively take bar services further, using the right equipment, and turn it into a bespoke service.

A year later I brought that idea to life with the help of my brother, Panagiotis Ramantanis.

We didn't necessarily envision ourselves taking up the event planning business. This was something that actually emerged through our years and years of experience with catering and moreover through our love of cocktail making. Experience mixed with concept made us realise that we had to throw ourselves into it and make what we love better. Down the line, this became a dream goal to accomplish.

Ramantanis Bros

Ramantanis Bros was founded in 2016 and, to this day, continues to provide bar services across different events. Focusing down to the last detail, armed with the proper respect and professional outlook for every guest and partner.

Caravan Bar

The Caravan Bar was built in 1980 and, to this day, continues to travel across Greece. It was refurbished in 2020 with every necessary specification to provide limited catering services at events such as corporate parties, wedding ceremonies, promotional events etc.

Boutique

Started off in 2020 by pioneering handheld glass bottles for coffee and cocktails, which can be topped up on discount for your next coffee or cocktail. They, then, are rinsed and re-used, thus reducing the use of plastic or paper glasses by 80%.

We build and customise the mobile bars we use. There is a variety of fully equipped mobile bars that come in assorted colours, styles and dimensions for every occasion. Specially customised for transport and installation at every location. All bars feature LED lighting, both indoors and outdoors (folding / hanging lights). The installation is complete with select decals and decor, applied on site depending on the theme and vibe of your event. We can build and customise mobile bars upon request according to any specification required exclusively for your event.
